Experience

Technergetics, Lead UX Designer

Aug 2023 – Aug 2024 | Utica, NY

Sole contributor on the mobile logistics team; led end-to-end design processes for web, mobile, and PWA enterprise platforms that modernized daily operations for over 250,000+ airmen.

Partnered closely with UX engineer; curated component and pattern reusability that reduced technical debt for 70+ engineers and streamlined experience cohesion across all platforms.

Spearheaded back-end driven design framework; partnered with engineering leads to annotate UI iterations of data sourced query and mutation calls to enhance development workflows.

Partnered with ML engineers to refine feedback loops; leveraging large language models, multi-modal models, deep neural networks, and semantic networks for recommendation systems, knowledge graphs, and predictive analysis.

Partnered closely with military subject matter experts throughout agile product cycles; translated contract product requirement documentation, conducted user interviews, and architected interdependent military persona workflows.

Drove collaboration with cross-functional partners (product management, engineering, subject matter experts, product owners, stakeholders, and leadership) to enable milestone completion.

Responsible for Rawhide, Merlin, Upgrade, Manifast, JetDash, Hyperkit, JI-JOE, DPC, and LogTrax.

Technergetics, UX Designer

Aug 2022 – Aug 2023 | Utica, NY

Designed solutions that automated and optimized hundreds of archaic military processes; reducing manual logs, paperwork, and excessive communication through process visualizations, data discovery, and real-time tracking to identify process breakdowns.

Conducted interactive prototype walkthroughs for product owners and stakeholders during bi-weekly sprint reviews to acquire feedback and demonstrate deliverable status.

Designed early stage concepts for contract proposals; 3+ SBIR Phase II contracts won based off of demonstrated feasibility, desirability, and applicability.

Lightcert, UX/UI Design Intern

Jan 2022 – Jun 2022 | Los Angeles, CA

Worked cross-functionally to revamp Lightcert’s internal mobile design system; streamlined their onboarding processes and designed the save/share feature for MVP v.2 that resulted in reaching over 40k+ fandoms.

Education

University of California, San Diego

Sep 2018 – June 2022 | La Jolla, CA

Psychology, B.A

Cognitive Science (Design + Interaction), Minor

Santa Barbara City College

Aug 2017 – June 2018 | Santa Barbara, CA

Communication, A.A

Certifications

ELVTR

Nov 2023 – Jan 2024 | Irvine, CA
